

Match the formula on the left with the correct description on the right.

H₂O

area of a circle

CO₂

area of a rectangle

E=mc²

area of a square

a²+b²=c²

4 Building Blocks of DNA

A, T, C, G

water

A²

Einstein's conversion of mass to energy

LW

carbon dioxide

πr^2

Pythagorean theorem for a right triangle

Compare your answers with those of someone seated next to you.

What would a formula for a growing Children's Sunday School look like? Discuss this with a friend and write on the back of this sheet of paper your formula for a growing Children's Sunday School.
